## Introduction

Tanzania Bureau of Standards (TBS) is the statutory national standards body for Tanzania, mandated to formulate, promulgate and implement national standards. The work of preparing national standards is solely done by TBS.

The Bureau has an established national standardization system through which national standards are formulated. This system is based on the 'consensus principle' which works through the use of technical committees. These committees draw members from all stakeholder groups including industries, government ministries and institutions, research institutions, higher learning institutions, business organizations and consumers. So far TBS has been able to finalize more than 1,500 Tanzania standards.

The finalized standards include product standards, management system standards, test methods, codes of practice and codes of hygiene. The standards cover various sectors of the economy including food and agriculture, chemicals, textiles and leather, engineering, environment and general techniques.

The standards formulated are voluntary, however if a standard covers a product that can affect health, safety, the environment or can have significant impact to the national economy, such standard is published as a compulsory standard.

The results of the TBS technical standards work are published as Tanzania National Standards. It is the policy of TBS to adopt other regional and international standards when they are found to be applicable to the Tanzanian situation. A full list of all Tanzanian standards is given in the *Catalogue of Tanzania Standards* which is available online on TBS website, [www.tbs.go.tz](http://www.tbs.go.tz)

During the development of Tanzania Standards, documents passes through a number of stages before they can be approved as Tanzania Standards. This procedure is designed to ensure that the final result is acceptable to as many interest groups as possible.

The *TBS Standards Work Programme Bulletin* contains a list of all the standards projects in progress and is published twice a year, in January and July.

## **Technical Committees**

Currently, there are nine supervisory committees commonly known as Divisional (Standards) Committees. The supervisory committees comprise of about 12 members each. Members are drawn from a cross-section of stakeholders that include the government, academia & research, manufacturers, distributors and consumers.

Under each Divisional Committee there are Technical Committees with least seven members of experts from a cross-section of stakeholders. In some cases, the Technical Committee may form Working Groups of about 3-4 experts that prepare the preliminary drafts. The chairpersons of all the committees are normally drawn from neutral bodies like the universities, or from the government and especially the relevant ministry. Secretaries are drawn from TBS.

TBS/TDC 7 – Cotton Fibre Technical committee

b) Serial number, in sequential order of standards development as it appears in the DS/P/02/F01 register as proposal 1 (P1)

Example; TBS/BCDC - 2 (3542) P<sub>1</sub> - .....title of a project.

It should be noted that the project number is used as reference to the draft standard under development. Different number is given when the document becomes a Finalized Draft Tanzania Standard where the same TZS number (of previous edition) is given for revised document and new number is given for the new document.

### **Stage codes of Tanzania Standards development:**

Depending on its development stages, a Draft Tanzania Standard (DTZS) shall be coded NWIP, P1, P2, P3 and FTZS

Where,

- NWIP New Work Item Proposal
- P1 draft Tanzania Standard for presentation to TC.
- P2 draft Tanzania Standard for presentation to DC
- P3 draft Tanzania Standard for stakeholder's comments.
- FTZS Finalized Draft Tanzania Standard to BoD for approval

### **Stage Date**

The stage date is the date on which the action or decision has been taken. For example, stage date 2017-07-01 means that on 2017-07-01 a draft has been recommended by TC to DC.

### **Target date (TA)**

A target date shows the date when the document is expected to be published as a Tanzania National Standard.

### **International Classification for Standards (ICS) Outline of the main ICS subject fields**
