## 0 NATIONAL FOREWORD

**0.1** The Tanzania Bureau of Standards is the statutory national standards body for Tanzania, established under standards Act No. 3 of 1975, amended by Act No. 1 of 1977 and then Act No. 3 was replaced by the Act No. 2 of 2009.

This draft Tanzania Standard was prepared by BCDC 6 Sawn timber, Sawn logs and Wood based Components Technical Committee, under the supervision of the Building and Construction Divisional Committee (BCDC).

This **Draft** Tanzania Standard is the identical adoption **9087:1998 Wood — Determination of nail and screw holding power under axial load application** published by International Organization for Standardization.

### 0.2 Terminology and conventions

This standard of the International Organization for Standardization (ISO) was approved for publication as a Tanzania Standard without deviation.

Some terminologies and conventions are not identical with those used in Tanzania Standards; attention is drawn to the following;

The comma has been used as a decimal maker for metric dimensions. In Tanzania, it is current practice to use a full point on the baseline as the decimal maker.

Whenever the words “ISO Standard” appear referring to this standard, they should read as “Tanzania Standard”.
