

**TBS/GTDC 5(5168)/ISO 2146:2010 Information and documentation - Registry
services for libraries and related organizations**

DRAFT FOR PUBLIC COMMENT ONLY

TANZANIA BUREAU OF STANDARDS

SCOPE

This draft standard establish the rules for registry operating in a networking environment to provide the information about collections, parties, activities and services needed by libraries and related organizations to manage their collection and deliver information and documentation service across a range of applications and domains.

This draft standard presents a data element directory that can be used as a framework for collecting the appropriate data and sharing it with other registry services, providing access to registry data through standard protocol whenever it is needed as a part of automated business workflow, publishing registries in electronic or print form, and achieving registry data when data exist only in electronic form.
