

EMDC 5 (5546) P3
ISO 2041

DRAFT TANZANIA STANDARD

**Mechanical vibration, shock and
conditional monitoring – Vocabulary**

FOR STAKEHOLDERS' COMMENTS ONLY

National foreword

This Tanzania Standard is identical to ISO 2041 (E), *Mechanical vibration, shock and conditional monitoring – Vocabulary* published by the International Organization for Standardization (ISO).

This standard defines terms and expressions unique to the areas of mechanical vibration, shock and condition monitoring. Other vibration standards make reference of this standards for definitions

Terminology and conventions

Some terminology and certain conventions in the ISO standards are not identical with those used in Tanzania Standards and attention is drawn to the following:

the comma (,) has been used as a decimal marker for metric dimensions. In Tanzania Standards, it is current practice to use a full point (.) on the base line as the decimal marker and

wherever the words “International Standard” appear in this Tanzania Standard, they should be interpreted as “Tanzania Standard”.
