

DRAFT TANZANIA STANDARD

**MEDC13 (5513) P3/ ISO 7240-1:2014 Fire detection and alarm systems —
Part 1: General and definitions**

TANZANIA BUREAU OF STANDARDS

DRAFT TANZANIA STANDARD

1 Scope

This part of ISO 7240 provides a set of general guidelines and definitions used in describing the fire detection and alarm system (FDAS) equipment installed in and around buildings, and the tests and requirements for these equipments in the other parts of ISO 7240.

ISO 7240 does not apply to smoke alarms, the requirements for which are specified in ISO 1223
