## DRAFT TANZANIA STANDARD

---

### 1 Scope

This part of ISO 6182 specifies performance and marking requirements and test methods for conventional, spray, flat spray, and sidewall sprinklers. It is not applicable to sprinklers having multiple orifices.

NOTE The requirements for early suppression fast response (ESFR) sprinklers are in ISO 6182-7; the requirements for domestic sprinklers are in ISO 6182-10; and the requirements for extended coverage (EC) sprinklers are under development.
