0.National foreword

The Tanzania Bureau of standards is the statutory national standards body for Tanzania, established under the act.No.3 of 1975, amended by act.No.2 of 2009

This Finalized Tanzania standard is being prepared by the Masonry Technical Committee, under the supervision of the Building and Construction Divisional Standards Committee (BCDC)

This finalized Tanzania Standard is identical adoption of **ISO 3881:1977 Building construction - Modular co-ordination - Stairs and stair openings - Co-ordinating dimensions**, published by the International Organization for Standardization (ISO). This publication was last reviewed and confirmed in 2019. Therefore, this version remains current.

Terminologies and conventions

The text of the international standard is hereby being recommended for adoption without deviation for publication as draft Tanzania standard.

Some terminologies and certain conventions are not identical with those used as Tanzania standards; attention is drawn to the following:

The comma has been used as a decimal marker for metric dimensions. In Tanzania, it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should read as “Tanzania Standard”.

Scope

This International Standard gives general principles for coordinating dimensions of stairs and stair openings in building construction.

It applies to buildings of all types.
