National foreword

TZS 289:1986 Technical drawing -sizes and layout of drawing sheets was found to be outdated during systematic review and has been withdrawn. The corresponding/current ISO Standard, **ISO 5457:1999.** Technical product documentation — Sizes and layout of drawing sheets**,** has been adopted as its replacement."

Terminology and conventions

Some terminology and certain conventions in the ISO standards are not identical with those used in Tanzania Standards and attention is drawn to the following:

Wherever the words "International Standard" appear in this Tanzania Standard, they should be interpreted as "Tanzania Standard".

The comma has been used as a decimal marker for metric dimensions. In Tanzania, it is current practice to use a full point on the baseline as the decimal marker.

Scope

This draft Tanzania Standard specifies the size and layout of preprinted sheets for technical drawings in any field of engineering, including those produced by computer. This draft Tanzania Standard is also applicable to other technical documents.
