Coke (greater than 20 mm in size) — Determination of mechanical strength

National foreword

This Tanzania Standard is identical to ISO 556:2020 Coke (greater than 20 mm in size) — Determination of mechanical strength, published by the International Organization for Standardization (ISO).

Terminology and conventions

Some terminologies and certain conventions in the ISO standards are not identical with those used in Tanzania Standards and attention is drawn to the following:

The comma (,) has been used as a decimal marker (.) for metric dimensions. In Tanzania Standards, it is current practice to use a full point on the base line as the decimal marker.

Wherever the words “International Standard” appear in this Tanzania Standard, they should be interpreted as “Tanzania Standard”.

Scope

This document specifies a method for the determination of the mechanical strength of coke having a particle size greater than 20 mm.
