DRAFT TANZANIA STANDARD

Workplace air — Analysis of respirable crystalline silica by Fourier-Transform Infrared spectroscopy

Draft for public comments

DRAFT TANZANIA STANDARD

0. National foreword

This Draft Tanzania Standard is identical to ISO 19087:2018 Workplace air — Analysis of respirable crystalline silica by Fourier-Transform Infrared spectroscopy published by the International Organization for Standardization (ISO)

Terminology and conventions

Some terminology and certain conversion are not identical with those used in Tanzania Standards; attention is drawn to the following:

The comma (,) has been used as decimal marker for metric dimensions. In Tanzania, it is current practice to use a full point (.) on the baseline as a decimal marker.

Wherever the words “International Standard” appear, referring to this draft standard, they should read as “Tanzania Standard”.
