

Draft Tanzania Standard

Sensory analysis — General guidance for the application of sensory analysis in quality control.

DRAFT STANDARD FOR PUBLIC COMMENTS ONLY.

NATIONAL FOREWORD

1.0 INTRODUCTION

This standard was adopted by sensory evaluation technical committee, under the supervision of Food and Agriculture Standards Divisional committee (AFDC).

It is identical to ISO 20613: — Sensory analysis — General guidance for the application of sensory analysis in quality control. which was published by International Organization for Standardization.

TERMINOLOGY AND CONVENTIONS.

This text of International standard, if found suitable, may be approved for publication as Tanzania standard without deviations.

Some terminologies and certain conventions are not identical with those used in Tanzania standards: attention is drawn especially to the following: -

1. The comma has been used as decimal marker for Metric dimensions. In Tanzania standards, it's currently practice to use "full point" on the baseline as decimal marker.
2. Where the words "International standard (s)" appear, referring to this standard they should read "Tanzania Standard(s)".

SCOPE

This standard gives guideline for the implementation of a sensory analysis programme in quality control (QC), including general elements and procedures. It is applicable to food and non-food industries. It is limited to in-plant sensory analysis in QC.
