## DRAFT TANZANIA STANDARD

---

**Agricultural food products - Layout for a Standard method of sampling from a lot**

**TANZANIA BUREAU OF STANDARDS**

---

## **NATIONAL FOREWORD**

The Tanzania Bureau of Standards is a statutory national standards body for Tanzania, established under the Act No.3 of 1975, amended by Act No.2 of 2009.

This Tanzania Standard is being prepared by General Sampling and Test Methods Technical Committee, under the supervision of Agriculture and Food Standards Divisional Committee (AFDC).

This Tanzania standard is identical adoption of ISO 7002:1986 (confirmed in 2018) Agricultural food products - Layout for a standard method of sampling from a lot published by the International Organization for Standardization

## **TERMINOLOGY AND CONVENTIONS.**

The text of International standard is hereby being recommended for approval without deviation for publication as draft Tanzania standard.

Some terminologies and certain conventions are not identical with those used in Tanzania Standards; attention is drawn especially to the following: -

1. The comma has been used as decimal marker for metric dimensions. In Tanzania, it is current practice to use "full point" on the baseline as decimal marker.
2. Whenever the words "International Standard" appear, referring to this draft standard, they should read as "Tanzania Standard".

## **SCOPE**

This International Standard establishes a general layout for standard methods of sampling from lots of agricultural products.

It gives only general rules for drafting Standard methods of sampling. It cannot be used itself, therefore, for sampling products; testing, inspection and acceptance procedures are dealt with to such an extent as to make the user aware of the meaning of further references.
