

Draft Tanzania Standard

Tobacco and tobacco products — Determination of organochlorine
pesticide residues — Gas chromatographic method

DRAFT STANDARD FOR THE PUBLIC COMMENTS ONLY.

TANZANIA BUREAU OF STANDARDS

NATIONAL FOREWORD

1.0 INTRODUCTION

This standard was adopted by Tobacco and Tobacco products technical committee, under the supervision of Food and Agriculture Standards Divisional committee (AFDC).

This draft Standard specifies a method for the gas chromatographic determination of pesticide residues in leaf tobacco, manufactured tobacco and tobacco products.

It is identical to ISO 4389:2000 Tobacco and tobacco products — Determination of organochlorine pesticide residues — Gas chromatographic method which was published by International Organization for Standardization.

TERMINOLOGY AND CONVENTIONS.

This text of International standard, if found suitable, may be approved for publication as Tanzania standard without deviations.

Some terminologies and certain conventions are not identical with those used in Tanzania standards: attention is drawn especially to the following: -

1. The comma has been used as decimal marker for Metric dimensions. In Tanzania standards, it's currently practice to use "full point" on the baseline as decimal marker.
2. Where the words "International standard (s)" appear, referring to this standard they should read "Tanzania Standard(s)".
