

DRAFT TANZANIA STANDARD

Meat and meat products – Determination of chloride content – Part
2: Potentiometric method

DRAFT STANDARD FOR PUBLIC COMMENTS

NATIONAL FOREWORD

The Tanzania Bureau of Standards is the statutory national standards body for Tanzania, formally established by the Act.No.3 of 1975, which amended and repealed by Act.No.2 of 2009.

This Tanzania Standard has been prepared by the Meat, Poultry, Eggs and their Products Technical Committee, under the supervision of the Agriculture and Food Standards Divisional Committee (AFDC).

It is identical to ISO 1841-2:1996 Meat and meat products – Determination of chloride content – Part 2: Potentiometric method, published by the International Organization for Standardization (ISO).

TERMINOLOGY AND CONVENTIONS

The text of the International standard is hereby being recommended for approval without deviation for publication as draft Tanzania standard.

Some terminologies and certain conventions are not identical with those used in Tanzania standards; attention is drawn especially to the following: -

- 1) The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, it is current practice to use “full point” on the baseline as the decimal marker.
 - 2) Where the words “International Standard(s)” appear, referring to this standard they should read “Tanzania Standard(s)”.
-
