

DRAFT TANZANIA STANDARD

Lubricants, industrial oils and related products (class L) - Machine-tool lubricants - Categories and specifications

TANZANIA BUREAU OF STANDARDS

National foreword

The Tanzania Bureau of Standards is the statutory National standards body for Tanzania, established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This Draft Tanzania Standard is being adopted by Lubricants and oils products Technical Committee under the supervision of the Chemicals Divisional Standards Committee.

This draft Tanzania Standard is the identical adoption of ISO 19378:2003 Lubricants, industrial oils and related products (class L) - Machine-tool lubricants - Categories and specifications

This Draft Tanzania Standards shall use undated normative references (only standard's number, no year of publication) to allow the use of updated edition of the same document

Terminology and conventions

Some terminologies and certain conventions are not identical with those used as Tanzania standards; attention is drawn especially to the following: -

The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, its current practice to use full point on the baseline as the decimal marker.

Where the words "International Standard(s)" appear, referring to this standard they should read "Tanzania Standard".

Scope

This International Standard provides the manufacturers and users of machine tools with criteria for the choice among the various categories of lubricants and gives specifications for these lubricants. This International Standard facilitates the application of ISO 5169 relating to the presentation of lubrication instructions for machine tools.
