

## **DRAFT TANZANIA STANDARD**

---

### **Quality control for batching and mixing steel fibre-reinforced concretes**

**TANZANIA BUREAU OF STANDARDS**

---

## **0.National foreword**

The Tanzania Bureau of standards is the statutory national standards body for Tanzania, established under the act.No.3 of 1975, amended by act.No.2 of 2009

This draft Tanzania standard is being prepared by Aggregates, Sand and Concrete Technical Committee (BCDC1), under the supervision of the Building and Construction Divisional Standards Committee (BCDC).

This draft Tanzania Standard is identical adoption of **ISO 22873: 2021 Quality control for batching and mixing steel fibre-reinforced concretes**, published by the International Organization for Standardization (ISO).

### **Terminologies and conventions**

The text of the International standard is hereby being recommended for adoption without deviation for publication as draft Tanzania standard.

Some terminologies and certain conventions are not identical with those used as Tanzania standards; attention is drawn to the following:

The comma has been used as a decimal marker for metric dimensions. In Tanzania, it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words "International Standard" appear, referring to this standard, they should read as "Tanzania Standard".
