

DRAFT TANZANIA STANDARD

TDC 11 (1154) CD₃/
ISO 17130: 2021
First Edition

Leather — Physical and mechanical tests — Determination of dimensional change

Draft for stakeholders comments only!

TANZANIA BUREAU OF STANDARDS

National foreword

The Tanzania Bureau of Standards is the statutory National standards body for Tanzania, established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This Draft Tanzania Standard is being adopted by the Apparel Technical Committee under the supervision of the Textile and Leather Divisional Standards Committee.

This Draft Tanzania Standard is identical adoption to ISO 17130: 2021 (Leather — Physical and mechanical tests — Determination of dimensional change published by International Organization for Standardization (ISO).

The text of the International Standard is hereby recommended for approval without deviation for publication as Draft Tanzania Standard.

Some terminologies and certain conventions are not identical with those used as Tanzania Standards; attention is drawn especially to the following: -

The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, its current practice to use full point on the baseline as the decimal marker.

Where the words “International Standard(s)” appears, referring to this standard they should read “Tanzania Standard”.

Scope

This document specifies a method of determining the dimensional change (shrinkage) of leathers caused by ageing. It is applicable to all leathers.
