

DRAFT TANZANIA STANDARD

Cocoa beans -Sampling

DRAFT STANDARD FOR PUBLIC COMMENTS ONLY

NATIONAL FOREWORD

1.0 INTRODUCTION

This standard was adopted by Cocoa and cocoa products technical committee, under the supervision of Food and Agriculture Standards Divisional committee (AFDC).

It is identical to ISO 2292:2017 Cocoa beans — Sampling which was published by International Organization for Standardization

TERMINOLOGY AND CONVENTIONS.

This text of International standard, if found suitable, may be approved for publication as Tanzania standard without deviations.

Some terminologies and certain conventions are not identical with those used in Tanzania standards: attention is drawn especially to the following: -

1. The comma has been used as decimal marker for Metric dimensions. In Tanzania standards, it's currently practice to use "full point" on the baseline as decimal marker.
2. Where the words "International standard (s)" appear, referring to this standard they should read "Tanzania Standard(s)".

Scope

This standard specifies general conditions relating to sampling for the determination of the quality of cocoa beans. It also gives requirements and recommendations on the procedure to be followed for sampling cocoa beans in bags and in bulk.
