

DRAFT TANZANIA STANDARD

Food products — Checking the performance of moisture meters in use — Moisture meters for oilseeds

Draft for stakeholders comments

TANZANIA BUREAU OF STANDARDS

0 NATIONAL FOREWORD

0.1 The Tanzania Bureau of Standards is the statutory national standards body for Tanzania, established under the Act.No.3 of 1975, amended by Act.No of 2009.

This draft Tanzania standard is being prepared by the Oleaginous Seeds Technical Committee, under the supervision of the Food and Agriculture Divisional Standards Committee (AFDC).

This draft Tanzania Standard is the identical adoption of ISO 7700-2:2011 Food products — Checking the performance of moisture meters in use — Moisture meters for oilseeds published by International Organization for Standardization.

0.2 Terminology and conventions.

The text of the International standard is hereby being recommended for approval without deviation for publication as draft Tanzania standard.

Some terminology and certain conventions are not identical with those used as Tanzania Standard; attention is drawn to the following:

The comma has been used as decimal marker or metric dimensions. In Tanzania, its current practice to use a full point on the baseline as decimal marker.

Whenever the words “International Standard” appear, referring to this draft standard, they should read as “Tanzania Standard”.

0.3 Scope

This part of ISO 7700 specifies a method of checking the performance of moisture meters in service for measuring the moisture content of oilseeds.
