

## **DRAFT TANZANIA STANDARD**

---

**Laboratory glassware - Narrow-necked boiling flasks**

For Stakeholders Comments Only

**TANZANIA BUREAU OF STANDARDS**

---

# **CDC 5 (1982) DTZS ISO 1773:1997 Laboratory glassware - Narrow-necked boiling flasks**

## **National Foreword**

Tanzania Bureau of Standards (TBS) is a sole National Standards body, established by the Standards Act No. 2 of 2009. It is mandated, among other functions, with formulation of National Standards in all products.

This Draft of Tanzania Standard is being prepared by Glass and Glass Products Technical Committee under the supervision of Chemical Divisional Standards Committee.

This Draft of Tanzania Standard is the identical of ISO 1773:1997 *Laboratory glassware - Narrow-necked boiling flasks* published by International Organization for Standardization (ISO).

## **Terminology and conventions**

The text of the international standard is hereby being recommended for approval without deviation for publication as draft Tanzania standard.

Some terminology and certain conventions are not identical with those used as Tanzania standard; attention is drawn especially to the following;

The coma (,) has been used as a decimal marker (.) for metric dimension. In Tanzania, its current practice to use a full point (.) on the baseline as decimal marker.

Wherever the words "International Standard" appears in the text, referring to this standard, they should be read as "Tanzania Standard".

## **Scope**

This International Standard specifies requirements and dimensions for an internationally acceptable series of conical flasks and of flat-bottom and round-bottom flasks for general laboratory purposes. The flasks are provided for

- direct use in a laboratory, fitting together with other equipment for general laboratory purposes;
- further work up to other products.
