

## DRAFT TANZANIA STANDARD

---

Oolong tea - Definition and basic requirements

Draft standard for stakeholders comments only

---

TANZANIA BUREAU OF STANDARD

## 0 National foreword

The Tanzania Bureau of Standards is the statutory national standards body for Tanzania, established under the Act. No.3 of 1975, amended by Act. No. 2 of 2009.

This draft Tanzania Standard is being prepared by the Tea Technical Committee, under the supervision of the Agriculture and Food Standards Divisional Committee (AFDC).

This draft Tanzania Standard is the identical adoption of ISO 20716:2022 Oolong tea - Definition and basic requirements published by the International Organization for Standardization (ISO).

## Terminology and conventions

The text of the International standard is hereby being recommended for approval without deviation for publication as draft Tanzania standard.

Some terminology and certain conventions are not identical with those used as Tanzania Standards; attention is drawn to the following:

The comma has been used as decimal marker for metric dimensions. In Tanzania, its current practice to use a full point on the base line as decimal marker.

Wherever the words "International Standard" appear, referring to this draft standard, Tanzania Standard, they should read as "Tanzania Standard".

## 1 scope

This standard specifies the parts of a named plant that are suitable for making oolong tea for consumption as a beverage and the chemical requirements for oolong tea that are used to indicate that tea from that source has been produced in accordance with good production practices.

It also specifies the packing and marking requirements for oolong tea in containers.

It does not apply to scented/flavoured teas.
