

TBS/AFDC 20 (2276) DTZS/ISO 22980:2020

DRAFT TANZANIA STANDARD

Tobacco - Determination of the content of total alkaloids as nicotine -
Continuous-flow analysis method using KSCN/DCIC

TANZANIA BUREAU OF STANDARDS

NATIONAL FOREWORD

The Tanzania Bureau of Standards is a statutory national standards body for Tanzania established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This draft Tanzania Standard is being prepared by the Tobacco and Tobacco products technical committee under supervision of Agriculture and Food Standards Divisional Committee (AFDC)

This draft Tanzania standard specifies a method for the determination of the content of total alkaloids as nicotine in tobacco by continuous-flow analysis. This method is applicable to leaf samples, stems, reconstituted tobacco sheet materials and tobacco blends.

This draft Tanzania standard is identical to the ISO 22980:2020 Tobacco - Determination of the content of total alkaloids as nicotine - Continuous-flow analysis method using KSCN/DCIC, published by International Organization for Standardization.

TERMINOLOGY AND CONVENTIONS

This text of the international standards if found suitable, may be approved for application as a Tanzania Standard without deviations.

Some terminology and certain conventions are not identical with those used in Tanzania standards; attention is drawn especially to the following.

- 1) The comma has been used as a decimal marker for metric dimensions. In Tanzania standards, it is current practice to use a full point on the base line as the decimal marker.
- 2) Wherever the words “International Standard” appear, referring to this Standard they should read as “Tanzania Standard”.
