DRAFT TANZANIA STANDARD

Biotechnology - Biobanking of microorganisms - Part 1: Bacteria and archaea

Draft Tanzania Standard for public comments only

TANZANIA BUREAU OF STANDARDS

NATIONAL FOREWORD

The Tanzania Bureau of Standards is a statutory national standards body for Tanzania established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This draft Tanzania Standard is being prepared by the Biotechnology Technical Committee, under supervision of Agriculture and Food Standards Divisional Committee (AFDC)

This draft Tanzania standard specifies requirements for the biobanking of bacteria and archaea. It includes management of microbial material associated data as well as biosafety and biosecurity requirements.

This draft Tanzania standard is applicable to all organizations performing biobanking with bacteria and archaea used for research and development.

This draft Tanzania standard does not apply to processing methods for microbial material intended for food/feed production, laboratories undertaking food/feed analysis or therapeutic use.

This draft Tanzania standard is identical to the ISO 24088-1:2022 Biotechnology - Biobanking of microorganisms - Part 1: Bacteria and archaea, published by International Organization for Standardization.

TERMINOLOGY AND CONVENTIONS

This text of the international standards if found suitable, may be approved for application as a Tanzania Standard without deviations.

Some terminology and certain conventions are not identical with those used in Tanzania standards; attention is drawn especially to the following.

- 1) The comma has been used as a decimal marker for metric dimensions. In Tanzania standards, it is current practice to use a full point on the base line as the decimal marker.
- 2) Wherever the words “International Standard” appear, referring to this Standard they should read as “Tanzania Standard”.
