

## DRAFT TANZANIA STANDARD

---

**Fire protection — Automatic sprinkler systems — Part 1:  
Requirements and test methods for sprinklers**

FOR STAKEHOLDER'S COMMENTS

**TANZANIA BUREAU OF STANDARDS**

---

## **National foreword**

This Tanzania Standard is identical to ISO 6182-1:2021, *Fire protection — Automatic sprinkler systems — Part 1: Requirements and test methods for sprinklers*, published by the International Organization for Standardization (ISO).

## **Terminology and conventions**

Some terminology and certain conventions in the ISO standards are not identical with those used in Tanzania Standards and attention is drawn to the following:

The comma (,) has been used as a decimal marker (.) for metric dimensions. In Tanzania Standards, it is current practice to use a full point on the base line as the decimal marker.

Wherever the words “International Standard” appear in this Tanzania Standard, they should be interpreted as “Tanzania Standard”.
