

**DRAFT TANZANIA STANDARD**

---

**Textiles - Synthetic filament yarns - Test methods for crimp properties of textured yarns**

DRAFT FOR STAKEHOLDERS COMMENTS ONLY

**TANZANIA BUREAU OF STANDARDS**

---

## **National foreword**

The Tanzania Bureau of Standards is the statutory National standards body for Tanzania, established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This Draft Tanzania Standard is being adopted by Sampling Procedures and Test Method Technical Committee under the supervision of the Textile and Leather Divisional Standards Committee.

This Draft Tanzania Standard is the identical adoption of **ISO 5688:2024 Textiles - Synthetic filament yarns - Test methods for crimp properties of textured yarns**; published by International Organization for Standardization.

The text of the International Standard is hereby recommended for approval without deviation for publication as Draft Tanzania Standard.

Some terminologies and certain conventions are not identical with those used as Tanzania Standards; attention is drawn especially to the following: -

The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, its current practice to use full point on the baseline as the decimal marker.

Where the words "International Standard(s)" appear, referring to this standard they should read "Tanzania Standard".

## **Scope**

This document specifies a test method for crimp properties of synthetic textured filament yarns.

Two treatment methods for crimp development are provided:

- Method A: Hot air method, and
- Method B: Hot water method.
