

AFDC 20 (3002) DTZS - ISO 3402:2023

DRAFT TANZANIA STANDARD

Tobacco and tobacco products - Atmosphere for conditioning and testing

TANZANIA BUREAU OF STANDARDS

NATIONAL FOREWORD

The Tanzania Bureau of Standards is a statutory national standards body for Tanzania established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This draft Tanzania Standard is being prepared by the Tobacco and Tobacco products technical committee under supervision of Agriculture and Food Standards Divisional Committee (AFDC)

This draft Tanzania standard specifies the atmosphere for the conditioning and testing of samples of tobacco and tobacco products.

This draft Tanzania standard applicable to cigarettes; however, if not specified differently in other ISO standards, it can also be applied to tobacco, other tobacco products, and materials used in the manufacture of tobacco products for which prior conditioning is necessary. Standards for the conditioning and testing of other forms of tobacco, tobacco products, and materials can refer to all or part of this document.

This draft Tanzania standard is identical to the ISO 3402:2023 Tobacco and tobacco products - Atmosphere for conditioning and testing, published by International Organization for Standardization.

TERMINOLOGY AND CONVENTIONS

This text of the international standards if found suitable, may be approved for application as a Tanzania Standard without deviations.

Some terminology and certain conventions are not identical with those used in Tanzania standards; attention is drawn especially to the following.

- 1) The comma has been used as a decimal marker for metric dimensions. In Tanzania standards, it is current practice to use a full point on the base line as the decimal marker.
- 2) Wherever the words “International Standard” appear, referring to this Standard they should read as “Tanzania Standard”.
