

**DRAFT TANZANIA STANDARD**

---

**Textiles - Man-made fibres - Determination of shape factors in cross section**

**TANZANIA BUREAU OF STANDARDS**

---

## TDC 5 (3152) DTZS/ ISO 20754:2018

### National foreword

The Tanzania Bureau of Standards is the statutory National standards body for Tanzania, established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This Draft Tanzania Standard is being adopted by Sampling Procedures and Test Method Technical Committee under the supervision of the Textile and Leather Divisional Standards Committee.

This Draft Tanzania Standard is the identical adoption **ISO 20754:2018 Textiles - Man-made fibres - Determination of shape factors in cross section**; published by International Organization for Standardization.

The text of the International Standard is hereby recommended for approval without deviation for publication as Draft Tanzania Standard.

Some terminologies and certain conventions are not identical with those used as Draft Tanzania Standards; attention is drawn especially to the following: -

The comma has been used as a decimal marker for metric dimensions. In Draft Tanzania Standards, its current practice to use full point on the baseline as the decimal marker.

Where the words "International Standard(s)" appear, referring to this standard they should read "Tanzania Standard".

### Scope

This document specifies methods for the determination of shape factors in the cross-section of man-made fibres.
