TANZANIA STANDARD

Burning behaviour of textiles and textile products — Vocabulary

Draft for stakeholders comments only!

TANZANIA BUREAU OF STANDARDS

1.0 Introduction

1.1 This Draft Tanzania Standard is being adopted by the Leather and Leather Products Technical committee, under the supervision of Leather Technology Division Standards Committee.

1.2 This Draft Tanzania Standard is identical to **ISO 4880:1997 Burning behaviour of textiles and textile products — Vocabulary (confirmed on 2019)**. Published by International Organization for Standardization (ISO).

1.3 This Draft Tanzania Standard is the first edition.

1.4 The text of the International standard is hereby being recommended for approval without deviation for publication as Draft Tanzania Standard.

2.0 Terminologies and conventions

If terminologies and conventions are not identical with those used in Tanzania standards; attention is drawn especially to the following: -

The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, it is current practice to use “full point” on the baseline as the decimal marker.

Where the words “International Standard(s)” appear, referring to this Draft Tanzania standard they should read “Draft Tanzania Standard(s)”.

SCOPE

This International Standard defines terms used in testing the burning behavior of textiles and textile products.

Although some of the terms have wide general usage and may be applicable to many materials and products, the definitions herein are in accordance with the use of the terms in the textile field.
