

DRAFT TANZANIA STANDARDS

TBS/MMDC3(3451)DTZS/TZS1963-7:2017/ISO13909-7:2016:Hard coal and coke — Mechanical sampling — Part 7: Methods for determining the precision of sampling, sample preparation and testing

FOR PUBLIC COMMENTS ONLY

TANZANIA BUREAU OF STANDARDS

National foreword

This Tanzania standard is being prepared by Mineral Processing Technical Committee (MMDC 3), under the supervision of the Mining and Minerals Standards Divisional Committee (MMDC).

This draft Tanzania standard is a second revision and an identical adoption of **ISO 13909-7:2016 Hard coal and coke - Mechanical sampling - Part 7: Methods for determining the precision of sampling, sample preparation and testing** prepared by ISO/TC 27.

The ISO standard title on the cover page has been written in bilingual, for the purpose of this Tanzania standard only English text of the title should be used.

Some terminologies and certain conventions are not identical with those used in Tanzania standards; attention is drawn especially to the following:

- The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, it is current practice to use “full point” on the baseline as the decimal marker.
- Wherever the words ‘International Standard’ appears in the text, referring to this draft standard, they should read as ‘Tanzania Standard’.
