

DRAFT TANZANIA STANDARD

TBS/MMDC3 (3920) DTZS/ ISO 7936: 2022 Coal — Determination and presentation of float and sink characteristics — General directions for apparatus and procedures

TANZANIA BUREAU OF STANDARDS

National foreword

This draft Tanzania Standard is being prepared by the Solid mineral fuels and related products technical committee (MMDC3), under the supervision of the Mining and Minerals Standards Divisional Committee (MMDC).

This draft Tanzania Standard is the identical adoption of ISO 7936: 2022 Coal — Determination and presentation of float and sink characteristics — General directions for apparatus and procedures, developed by ISO/TC 27, Coal and coke, Subcommittee SC 1, Coal preparation: Terminology and performance.

Some terminology and certain conventions are not identical with those used in Tanzania standards; attention is drawn especially to the following: -

- The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, it is current practice to use “full point” on the baseline as the decimal marker.
- Wherever the words ‘International Standard’ appears in the text, referring to this draft standard, they should read as ‘Tanzania Standard’

Wherever there is bilingual language English language shall be used.
