

Draft Tanzania Standard

**Surface active agents - Fabric conditioners - Determination of
antistatic performance**

TANZANIA BUREAU OF STANDARDS

TANZANIA BUREAU OF STANDARDS

National Foreword

This finalized Tanzania Standard is identical to **ISO 23324:2020 Surface active agents-Fabric conditioners-Determination of antistatic performance**, published by International Organization for Standardization.

Terminology and conventions

Some terminology and certain conventions in the ISO standards are not identical with those used in Tanzania Standards and attention is drawn to the following:

Where the words “ISO Standard(s)” appear, referring to this standard they should read “Tanzania Standard(s)”.

Scope

This document specifies a method for the determination of static electricity elimination (antistatic) performance.

This document is applicable to fabric conditioners and antistatic agents.

NOTE The differences between this document and some International Standards related to static electricity on textiles are listed in Annex B.
