## DRAFT TANZANIA STANDARD

---

**Lubricants, industrial oils and related products (class L) -  
Classification - Part 7: Family M (Metalworking)**

**TANZANIA BUREAU OF STANDARDS**

---

## **National foreword**

The Tanzania Bureau of Standards is the statutory National standards body for Tanzania, established under the Act.No.3 of 1975, amended by Act.No.2 of 2009.

This Draft Tanzania Standard is being adopted by Petroleum and petroleum products Technical Committee under the supervision of the Chemicals Divisional Standards Committee.

This draft Tanzania Standard is the identical adoption of ISO 6743-7:1986 Lubricants, industrial oils and related products (class L) - Classification - Part 7: Family M (Metalworking)

The text of the international standard is hereby being recommended for approval without deviation for publication as draft Tanzania standard.

## **Terminology and conventions**

Some terminologies and certain conventions are not identical with those used as Tanzania standards; attention is drawn especially to the following: -

The comma has been used as a decimal marker for metric dimensions. In Tanzania Standards, its current practice to use full point on the baseline as the decimal marker.

Where the words "International Standard(s)" appear, referring to this standard they should read "Tanzania Standard".

## **Scope**

This part of ISO 6743 establishes the detailed classification of family M (Metalworking) which belongs to the class L (Lubricants, industrial oils and related products). it should be read in conjunction with ISO 6743/O.

To avoid any misunderstanding and to clarify the text, the following annexes are included:

- annex A: definitions of certain words or terms used in this classification;
- annex B: distribution of categories of products by field of application in tabular form;
- annex C: distribution of categories of products, in relation to their constitution and properties, in tabular form.
