

**DRAFT TANZANIA STANDARD**

---

---

**Paints and varnishes — Standard panels for testing**

**TANZANIA BUREAU OF STANDARDS**

---

---

## National foreword

Tanzania Bureau of Standards (TBS) is a sole National Standards body, established by the Standards Act No. 2 of 2009. It is mandated, among other functions, with formulation of National Standards in all products.

This Draft of Tanzania Standard is being prepared by Paints and Varnish Technical Committee under the supervision of Chemical Divisional Standards Committee

This Draft Tanzania Standard is identical adoption of ISO 1514: 2024 *Paints and varnishes — Standard panels for testing* published by the International Organization for Standardization (ISO).

## Terminology and conventions

Some terminology and certain conventions in the ISO standards are not identical with those used in Tanzania Standards and attention is drawn to the following:

The comma (,) has been used as a decimal marker (.) for metric dimensions. In Tanzania Standards, it is current practice to use a full point on the base line as the decimal marker.

Wherever the words “International Standard” appear in this Tanzania Standard, they should be interpreted as “Tanzania Standard”.

## Scope

This document specifies several types of standard panels and provides guidance and requirements on the procedures for their preparation prior to painting. The standard panels described in this document are intended for use in general methods of test for paints, varnishes and related products
